The Porto Alegre Sustainable Innovation Zone
(ZISPOA - Zona de Inovação Sustentável de Porto Alegre)
 is the first major implementation step
 of **Global Urban Development's World Bank-funded 2015 Leapfrog
 Economic Strategy** for the City of Porto Alegre
 and the State of Rio Grande do Sul (RS)
 to become the most Sustainable and Innovative places in Latin
 America by 2030.

Porto Alegre Sustainable Innovation Zone (ZISPOA)

Sustainable Innovation Zones Combine 6 Key Elements:

- Innovation and Technology
- Entrepreneurship and Startups
- Sustainability and Resource Efficiency
- Creativity and Collaboration
- Participatory Community Management
- Business-Friendly Environment

RESOURCES

MARC A. WEISS

Chairman & CEO, Global Urban Development (GUD) and Coordinator, Porto Alegre Sustainable Innovation Zone (ZISPOA)

"Sustainable Innovation Zones and Inclusive Prosperity generate Climate Actions and SDG progress by enabling cities to 'get richer by becoming greener.'"

Geographical scope:
Global

Climate Action:

Dr. Weiss and GUD have promoted climate actions by organizing Sustainable Innovation Zones in cities globally since 2015, starting with the Porto Alegre Sustainable Innovation Zone (ZISPOA) and Santo Ângelo Creative and Sustainable Innovation Zone (ZISSAN) in Brazil, Panama City Sustainable Innovation Zone (ACTA) in Panama, and Penrith Sustainable Innovation Community in Western Sydney, Australia.

Sustainable Innovation Zones are based on combining six key elements: Innovation and Technology, Entrepreneurship and Startups, Sustainability and Resource Efficiency, Creativity and Collaboration, Participatory Community Management, and Business-Friendly Environment. They are magnets for talent developing innovative technologies, products, and services that conserve, reuse, and renew resources more efficiently, enabling families and communities to experience Inclusive Prosperity and quality of life by earning and saving more money through thriving businesses, better jobs, and higher incomes. Sustainable Innovation Zones foster participatory activities that help accomplish the UN Sustainable Development Goals, Paris Climate

PROMOTING SOLUTIONS AND ATTITUDES

PRO-ECOLOGICAL:

- INCREASING BIOLOGICALLY ACTIVE AREAS / QUANTITY OF GREENERY WITHIN THE CAMPUS
- INCREASING ENERGY EFFICIENCY OF CAMPUS BUILDINGS AND INFRASTRUCTURE
- IMPROVING THE ACCESSIBILITY OF THE CAMPUS AREA - UNIVERSAL DESIGN
- CREATING SOCIALLY INTEGRATING SPACES

SCIENTIFIC RESEARCH AND EDUCATIONAL-CULTURAL ACTIONS:

- PROMOTING PRO-ECOLOGICAL ATTITUDES
- PROMOTING A HEALTHY LIFESTYLE: SPORTS / HEALTHY FOOD PROMOTION
- SUSTAINABLE INNOVATION IN RESEARCH AND IMPLEMENTATION

The logo for EDIT Poznań features the text "EDIT Poznań" in a bold, black, sans-serif font. The text is partially enclosed by a thick, hand-drawn style outline that transitions from light blue on the left to light green on the right. A small black mouse cursor arrow points to the right, positioned between the two lines of text.

EDIT WARTA CAMPUS DAY

DUT Call 2023 (closed)

Mobility - Energy - Circularity

DUT Call 2023 People-centred urban transformation

Call Results

The first stage of the DUT Call 2023 closed on 21 November 2023. More than 1600 project partners applied for approximately €200 million in funding in 183 proposals. 71 proposals were invited to the second stage, which closed on 30 April 2024. 42 proposals have been suggested for funding.

Circular Urban Economies Projects

The following projects have been suggested for funding in the Circular Urban Economies (CUE) Transition Pathway in the DUT Call 2023.

3.2 Knowledge and optimisation of resources flows between urban and rural areas

No project focus solely on this topic.

3.3 Planning and designing urban areas with nature: towards a regenerative urbanism

EDITUA – an innovative interactive incubator of socio-spatial change fostering green urban regeneration, employing AI in gain of the public democracy

The project will develop a tool named EDITUA, serving EDITing Urban Assets, to provide ecologically-oriented improvement strategies by transforming vacant urban interiors. This tool will enable stakeholders to shape eco-friendly urban areas through intuitive digital interaction.

Project coordinator: Politechnika Poznanska

Participating countries: Estonia, France, Germany, Greece, Poland, Slovenia, United States

Together for climate-neutral cities

Viable Cities is a strategic innovation program working towards the mission of Climate Neutral Cities 2030 with a good life for all within the boundaries of the planet.

[Read more](#)

Welcome to European Viable Cities Day 2024

Together towards Climate-Neutral Cities 2030

Viable Cities are pleased to invite you to our seventh European Viable Cities Day on **December 6, 2024** – a bridge between the Swedish, European and global efforts towards the mission of Climate-Neutral Cities by 2030.

On Dec 6 2024, Swedish cities and government agencies will, for the fourth year, gather and sign a revised and more ambitious Climate City Contract (Klimatkontrakt 2030). We are honoured by the presence of many Swedish and international key actors in the climate transition in cities, who will share their experiences and aspirations for the next steps towards the mission in Sweden, Europe and globally.

The Signing Ceremony of the Swedish Climate City Contract (Klimatkontrakt 2030)
